

Quality Policy

Omexom is committed to delivering a quality product and service to meet or exceed customers' expectations. At Omexom we believe that tomorrow's customers will be determined by today's performance.

Leadership

- Building and maintaining enduring Customer and Supplier relationships.
- Understanding and aligning with Customer current and future needs.
- Maintaining overall responsibility for monitoring and continual improvement of the company Management System.

People

- Empowering employees whose pride in their work generates a level of performance creating value for our customers and Omexom.
- Providing services, workmanship and materials which meet or exceed statutory requirements and agreed specifications and standards.
- Supporting our employees if they stop work due to quality concerns.
- Establishing measurable objectives to monitor business performance.
- Delivering to a consistent high standard of workmanship.
- Actively embracing and engaging in innovative ideas and continual improvement.

Risk

- Identifying risks that may impact on the company's goals and objectives.
- Developing and implementing risk controls.
- Monitoring the implementation and effectiveness of risk controls, through a robust assurance programme.
